Help-Page

How to add a new page

...to this documentation

Please read: <https://www.dokuwiki.org/wiki:syntax>

First just put into your addressbar: .../doku.php?id=**CAT:NEWPAGE**

Available **CAT**:

- introduction
- products
- products:imx6
- products:a38x
- other

available **subcats** are:

products:imx6:hummingboard:hb2

so if u want to create a new site concerning hb2, for example gpio,
use `doku.php?id=products:imx6:hummingboard:hb2:gpio`

Then add the **NEWPAGE**

- for example
- gpios
- other_distributions

etc

Pictures and other media content:

Belongs to:

imx6/hummingboard/ ...

Optimize Content

please add Tags to your side.

use at least one of these tags

- imx6
- a38x
- a5xx

→ for a better search result and overview.

How to add tags:

click on the right button of your text editor Then something like this automatically gets into your textfield.

```
{ { tag > Insert Tag-Syntax} }
```

Each tag word is separated by a space. If u need a space in your tag, just connect both words by using _

Example:

```
{ { tag>imx6 carrier_board gpio } }
```

Thank you.
