For further information please have a look at the official [Marvell Wiki](#)

A8040 Distributions	A8040 Software Development							
<p>A distribution is a complete operating system. Some distributions are general Linux systems and can be used for a lot of uses. Others are geared to just one particular use case. Only Yocto and Debian is supported by Solidrun - all other Distributions are community images.</p>	<p>Everything about Kernel, Drivers, U-boot and OBS</p>
