

IMX6 HDMI CEC

[imx6](#), [cec](#), [hdmi cec](#), [hdmi-cec](#), [remote](#), [remote control](#)

About HDMI CEC

“Consumer Electronics Control (CEC) is an HDMI feature designed to allow the user to command and control up-to 15 CEC-enabled devices, that are connected through HDMI, by using only one of their remote controls (for example by controlling a television set, set-top box, and DVD player using only the remote control of the TV). CEC also allows for individual CEC-enabled devices to command and control each other without user intervention.”

Source and further information: [Wikipedia](#)

Supported Devices

All IMX6 devices supports hdmi cec hardware sided. But not in all operation system this is included.

For enable it software side, please have a look at libcec and imx6cec:

<https://github.com/xbmc-imx6>

<https://github.com/xbmc-imx6/libcec>

Supported Operation System

- OpenElec
- Geexbox
- other operation systems which got libcec installed (Archlinux, Xbian, Debian etc...)

At the current stage the HDMI-CEC functionality is not implemented in any imx6 Android version.
