Motives

SolidRun Ltd. is discontinuing its SRCFCBE000V11 (Rev-1.1) and replacing it with SRCFCBE000V12 (Rev-1.2). The motivation of moving from Rev 1.1 to 1.2 is to fix a minor mechanical compatibility issue with the product standard enclosure. In addition connector J22 (4x2 50-mil through hole header on bottom left corner of product) will no longer be populated. This should have no impact on any existing customers per the information we have.
